NEW ADDITIONS 2020

INTRODUCING

Yet again, the Design Team at Abode have worked hard developing new designs and innovations for the Kitchen, keeping you ahead of the market in price, quality and style.

Kitchen Taps

The most important finishing touch in any kitchen, we are proud to launch the Hex, Coniq and the Tubist ranges of taps to add to our portfolio of eye-catching kitchen taps.

Hot Water Taps

Not content with a new impossibly slim 3 IN 1 tap, and a low cost 4 IN 1 model, we have also upgraded our boiler systems. Hot stuff!

Hot Water Boilers

Our hot water boilers just got hotter, faster, quieter and more stylish with the introduction of the new digital Proboil.2X unit. All of this supported by our new national service team.

Water Filter Taps

Last but not least, introducing Puria, the super stylish new aquifier water filter mixertaps from Abode. Ditch the plastic and refill with style.

PROBOIL.2X

distinctly™

The Proboil.2X is the next generation in intelligent hot water boilers, offering fast and trouble free delivery of steaming hot filtered water, instantly at the touch of a handle. Fast and simple to install, Proboil.2X offers a 2 litre stainless steel tank, with a quick re-boil time and simple intuitive digital controls. Distinctly Smarter.

Distinctly **Hotter**

Factory calibrated to maximise boiler to cup temperatures

Distinctly **Quieter**

Insulated to reduce background heating noise

Distinctly **Simpler**

Toolless installation using hand fix colour coordinated parts

Distinctly **Faster**

Simple installation reducing plumbing complexity

Distinctly **Approved**

WRAS (pending), EMC, LVD & BEAB approved

Distinctly **Safer**

Predictable, splutter free and regulated water delivery

Distinctly **National**

National Team of 30 service engineers across the UK

Higher rating element for faster re-boil and heating

Computer controlled:

- Touch display - On screen temperature display
- No temperature calibration required
- Filter life indicator visual and audible
- Power saving mode – holiday / eco setting
- Selectable temperature range
- Boil dry prevention
- Self diagnostics

No external drain valve:

- Reduced water wastage
- No need for additional drain connection
- Simpler / faster / more flexible to install

All Proboil.2X hot water boilers are protected by Proboil Resin / GAC filters (supplied with all systems), that reduce the water hardness to help extend the life of the tank, as well as improving the taste and clarity of your drinks.

MORE IS LESS™

The result of over 2 years research and development, we are delighted to unveil the slimmest and most cost-effective hot water tap in the market. The Prothia design is based upon our Award winning Althia mixertap design series, with the additional functionality of piping hot water delivered safely through our cool touch spout.

INTUITIVE
DIGITAL
INTERFACE

Passion, Innovation and Assurance are the core values that make us tick.

We place our focus on creating and engineering product ranges that bring something different and unique to the kitchen. The award-winning Hex series is the embodiment of this philosophy.

- Striking Industrial chic design with hexagonal features on the handle, tip and base of spout
- Ceramic disc valve technology for ultra smooth flow and temperature control
- Energy efficient, cold start valve functionality
- Factory fitted check valves

The very latest design series from Abode is Coniq R.

As the name suggests simple conical styling underpins this range – you can either use this as an understated range design or create a central and bold statement at the centre of any kitchen.

- Clean and simple shapes lie at the heart of Coniq.
- Available in up to the minute finishes, Polished Copper and Matt Black
- Ceramic disc valve technology for ultra-smooth flow and temperature control
- Energy efficient, cold start valve functionality on single lever mixertaps

Introducing the sister design to Coniq R... Coniq S. Not for the faint hearted.

As the name suggests simple conical styling underpins this range and is enhanced with the transition into a square base. This is a bold and headstrong design and will become a talking point in any kitchen.

- Clean and simple shapes lie at the heart of Coniq S
- Available in special new finishes, Polished Copper and Black Nickel
- Ceramic disc valve technology for ultra-smooth flow and temperature control
- Energy efficient, cold start valve functionality on single lever mixertaps

Minimum 0.9 bar pressure required
H:320 SER:216 SEH:242 BP:48

This new range was inspired by simple geometry.

Technically challenging to manufacture, the tubes of the Tubist range create clean and flowing gentle shapes that merge together in one fluid form.

- Clean and simple shapes lie at the heart of Tubist.
- Available in special new finishes, Matt Black, Polished Copper and Brushed Nickel
- Ceramic disc valve technology for ultra-smooth flow and temperature control
- Energy efficient, cold start valve functionality on single lever mixertaps

Puria Aquifier Water Filter Tap

Abode have always led the market in innovative filter water taps and the latest addition to the Aquifier range is the slimline Puria mixertap. It has a simple single lever control valve offering smooth flow and temperature control on the domestic supply. Filtered drinking water is delivered through a separate channel and has never been as competitive. Ditch the plastic and save a packet too!
